Specifications

Accessories

Overview:

We offer an exhaustive line of twisted 3-strand and kernmantle type lifelines, available in assembly configurations with a snap hook or simple cut lengths only. We stock various sizes including 1/2" (12.7 mm), 5/8" (16 mm) and 3/4" (19 mm) in polyester, nylon and polyester/polypropylene blend construction to suit almost any need imaginable. Our lifelines are extremely durable and incorporate unique terminations for added strength and durability. We also offer several styles of counterweights to keep the lifeline taut and optimize performance for rope grab systems.

Rope Lifeline with Snap Hook

Model: 1202844

100 ft. (30 m) polyester/polypropylene blend 5/8" (16 mm) diameter rope lifeline with snap hook at one end.

PRODUCT HIGHLIGHTS

- Mobile design automatically follows user
- Manual option allows user to fix in place
- Cam locking system for safety
- Detachable anywhere along the lifeline
- Durable and lightweight corrosion resistant construction
- For use with 5/8" (16 mm) diameter polyester/polypropylene blend rope lifeline
- Use with 3 ft. (0.9 m) shock absorbing lanyard

Overview:

We have you covered with a complete line of PRO™ mobile and static rope grabs, along with a wide variety of lifelines to meet your work needs. All of our rope grabs are made of high grade corrosion resistant materials. Our most popular PRO™ rope grabs automatically follow you, giving you maximum freedom and hands-free operation. They can be detached or removed anywhere along the lifeline. The rope grabs utilize a cam lever brake to lock the rope grab onto the lifeline in case of a fall; some also incorporate a secondary inertial brake in the event the operator holds the device open in a panic situation. They will also reduce the arresting forces on a worker if there is a fall. We also manufacture a complete range of lifelines for use with our rope grabs.

GEMTOR BRAND

Model # VF505 - Rope Grab

Automatic energy absorbing rope grab follows a worker up and down a 5/8"- 3/4" diameter vertical synthetic lifeline. The unit's controlled, shock-absorbing action eliminates the need for an energy absorbing lanyard. The patented design allows the rope grab to be attached, detached and positioned at any point on the vertical lifeline. Weighs 1 1/2 lbs. and is made of stainless steel. New York State Approval # 9502
